Ref. No. MMVP/2023-24/___ **INTERNAL QUALITY ASSURANCE CELL (IQAC)** Date: ___/___/2024

Criterion VII

7.1.3 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 200 words)

- Solid waste management
- Liquid waste management
- Biomedical waste management
- E-waste management
- Waste recycling system
- Hazardous chemicals and radioactive waste management

Institution is very conscious about environment and generating less waste by recycling it through a system that ensures reuse so that natural and eco-friendly resources can be carefully consumed. Institution has segregated waste into five parts.

1. Solid Waste Management:

- Solid wastage collected and handed over to the Municipal Corporation waste collection vehicle
- Use of green net for compost
- Green, blue and yellow dustbins used to collect solid waste from each floor and department
- Sweepers and campus cleaners appointed
- All used waste paper sent to the garbage collector for recycling

1. Liquid Waste Management:

- Provision of pipeline for sanitation and irrigation
- Waste water harvesting system.
- Provision of water tank
- Reuse of water for horticulture and bathroom toilets cleaning

1. Biomedical Waste Management:

- Sanitary Napkin Vending and Disposal Machine
- Biomedical waste is generated rarely at health Care Centre that is outsourced to Municipal Corporation

1. E-waste Management:

- Irreparable E-waste computers, keyboards, printers, xerox machine, electric equipment etc. sold as scrap
